

JANX

PIPELINE INTEGRITY

COMPREHENSIVE & ADVANCED SOLUTIONS

- **Laser Scanning & 3D Modeling** – Assessing corrosion, dents, and structural integrity.
- **Material Verification** – MEGA rule compliant with the use of the MMTs testing technologies – hardness, strength, and ductility (HSD) Testing.
- **Guided Wave Examination** – Detecting defects in long pipeline sections.
- **Ultrasonic Testing (UT) & Phased Array Ultrasonic Testing (PAUT)** – Manual, semi-automated, and automated ultrasonic inspections including PA FMC/TFM to provide better resolution for accurately sizing stress corrosion cracking in pipelines and other assets.
- **Environmental Verification** – GPS mapping of feature locations, topographical data and soil composition, groundwater pH and cathodic potential measures, depth of cover assessments, corrosion agent identification, vintage coating assessments.
- **Repair Quality Control** – Once anomalies are detected and repairs are made, JANX ensures repair quality through NDE techniques and Certified Welding Inspector (CWI) services. Additionally, we provide grinding repairs for defects such as arc strikes, gouges, and stress corrosion cracking.

ABOUT US

With over 40 years of experience, advanced technology, and a highly skilled workforce, JANX delivers comprehensive pipeline integrity services to help operators ensure the reliability and safety of their pipelines. Our industry-leading non-destructive testing (NDT) methods provide accurate and detailed data, supporting operators in making informed decisions to protect people, property, and the environment.

ADVANCED EVALUATION METHODS

We utilize both conventional and cutting-edge evaluation techniques, including proprietary technologies, for the highest accuracy and efficiency.

RAPID RESPONSE

We are able to staff up quickly, reporting to work sites within 24 to 48 hours of a service call, often in less time.

LONG-TERM RELATIONSHIPS

Many of our clients have been with us for years, and some have trusted JANX since we were founded in 1981.

EXPERIENCED TECHNICIANS

Our skilled technicians and team leaders have an in-depth understanding of our clients' needs and the industries we serve.

PIPELINE INTEGRITY BENEFITS

PROVIDES ESSENTIAL DATA FOR COMPREHENSIVE INTEGRITY MANAGEMENT

HELPS PROTECT PEOPLE, THE ENVIRONMENT, AND PROPERTY

REDUCES THE RISK OF PIPELINE FAILURES AND COSTLY DISRUPTIONS

ENSURES COMPLIANCE WITH INDUSTRY CODES AND STANDARDS

SUPPORTS OPERATORS OF ALL PIPELINE SIZES AND PROJECTS
