AEGEUS
INSPECTION SOLUTIONS

PIPELINE INTEGRITY SOLUTIONS

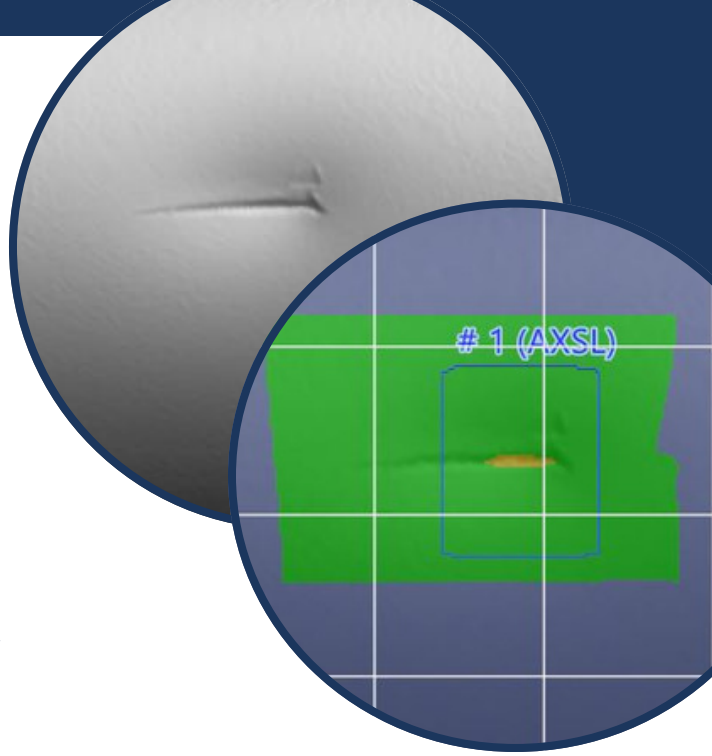

BENEFITS OF PIPELINE INTEGRITY PROGRAMS

- **Enhanced Safety:** *Early identification of threats such as corrosion, cracking, dents, and weld defects; Reduced risk of leaks, ruptures, and unplanned outages*
- **Regulatory Compliance:** *Alignment with PHMSA Mega Rule requirements and other regulatory including 49 CFR Part 192, Subpart O – Gas Transmission Integrity Management and 49 CFR Part 195, Subpart F – Integrity Management*
- **Cost Efficiency:** *Early detection lowers repair costs and prevents catastrophic failures*
- **Asset Life:** *Accurate condition assessments to prevent unnecessary replacements; Optimized maintenance strategies based on actual pipeline condition*

AEGEUS INSPECTIONS COMPREHENSIVE SOLUTIONS

- **Advanced and Conventional NDT solutions**
- **ILI and Direct Examination Support**
- **Material Verification and Mega Rule Aligned Inspections**

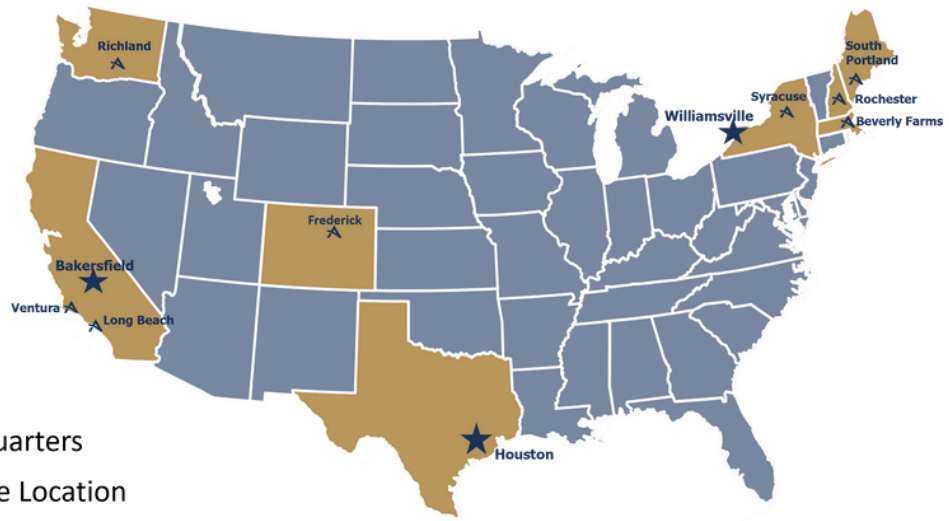

With more than 40 years of experience, Aegeus Inspection Solutions specializes in non-destructive testing, inspection, engineering, and staff augmentation for the energy, defense, and aerospace industries. Our expert professionals are dedicated to safeguarding asset integrity and safety, creating tailored inspection programs that focus on cost efficiency, performance optimization, and regulatory compliance.

SERVICES OVERVIEW

- Conventional NDT
  - Manual UT (MUT)
  - Radiography (RT/CR/DR/RTR)
  - Magnetic Particle (MT)
  - Dye Penetrant (PT)
  - Visual Testing (VT)
  - Hardness Testing, PMI
- Advanced Solutions
  - Phased Array (PAUT)
  - Internal Corrosion (AUT)
  - 3D Laser Corrosion Mapping
  - Material Verification
- Environmental
  - Soil Resistivity
  - Soil pH measurements
  - Groundwater pH
  - Depth of cover measurements
  - Soil type determinations
  - Topographical data
  - Coating assessments
- Threat Identification & Characterization
  - Corrosion assessments
  - SCC detection and sizing
  - Mechanical damage and dent assessments
  - Manufacturing defect characterization
