FESCO PIPELINE SERVICES

***75 YEARS OF CLIENT-DRIVEN
OPERATIONAL EXCELLENCE***

ESTABLISHED 1949

COAST-TO-COAST

Pipeline Services

- El Campo, TX
- Shinnston, WV
- Tulsa, OK

***Serving the Permian,
Eagleford, Haynesville,
and Appalachia Regions***

FESCO maintains a highly skilled staff of technicians and engineers to support any pipeline cleaning and integrity requirement while maintaining Safety and Compliance awareness throughout the project. We routinely provide personnel and equipment to manage or support pigging projects.

ABOUT US

W. E. (Bill) Findley, Jr. founded FESCO, Ltd. In 1949 as Findley Engineering Service Company. He designed and built a portable laboratory (split stream lab truck) that determined optimum separation conditions for gas-condensate wells on location. Bill's leadership and vision transformed FESCO from a one-man business to an industry-leading diversified energy services company employing over 1,000 professionals in 17 locations.
