

Pipeline Evacuation & Natural Gas Compression Services

- Pipeline evacuation with ZERO emissions
- Midstream, Transmission & Distribution
- Oil Field & Refineries
- PLC controlled systems
- 1, 2, 3 stage compressors
- Trailer dimensions : 48' L X 8' W X 13' H
- ASME code
- OQ Qualified
- Mobilize anywhere in North America
- Methane Mitigation & Decarbonization
- Pipeline & Hazardous Material's Safety Administration (PHMSA) Mega Rule Compliant

ENVENT PORTABLE COMPRESSOR SYSTEM

Compressor Specification details:

- Ariel 4 Throw Compressor
- Caterpillar 400 hp Engine
- Equipped with Ariel Smart Compressor Technology
- Adjustable Automated downstream relief protection
- MAWP (Suction and Discharge) 1440 psi
- No External Generator or Fuel Required
- Single, Two, and Three Stage Configurations Available
- Capable of reducing 1200 PSI down to <5 PSI with a single unit
- Flow Capacities
 - Suction pressure (psig): 100 – 1440 Discharge Pressure (psig): 1440
 - Flow Rate 1 – 17 MMSCFD
 - Suction pressure (psig): 100 – 600 Discharge Pressure (psig): 600
 - Flow Rate 1 – 5.25 MMSCFD
