WORK AND TASK MANAGEMENT

Manage work and tasks integrated in our map and table Views. See real-time where your field crew is located. Access tasks via the Mobile App. Chat and collaborate between the field and the office.

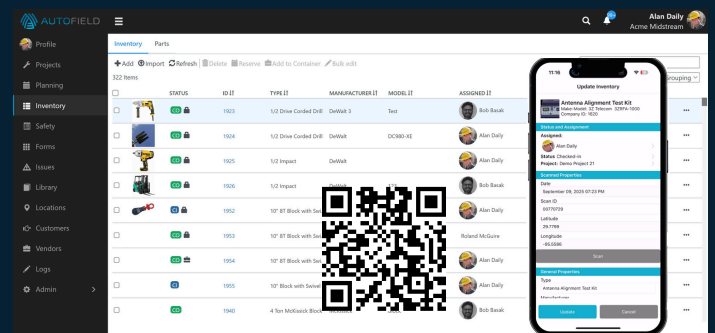

ASSET MANAGEMENT AND PREVENTIVE MAINTENANCE

Manage Assets: Monitor Tasks, Operator Logs, Issues, Safety Measures, IoT Analytics, and Preventive Maintenance. Get alerts for scheduled maintenance to prevent costly and unexpected repairs.

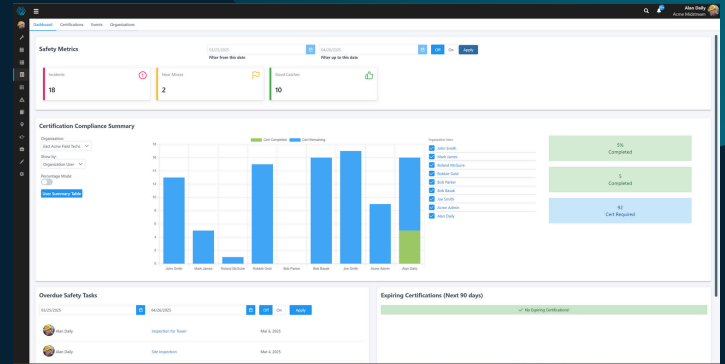

OPERATIONAL ANALYTICS, IOT, AND WORKFLOW AUTOMATION

Integrate your IoT and SCADA systems with the AutoField Platform for Operational Data Analytics and Workflow Automation

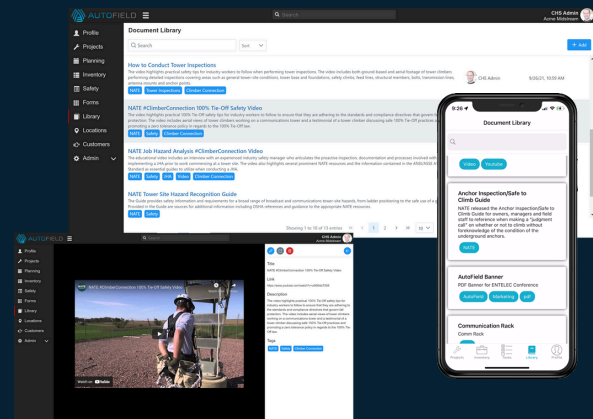

TRACK INVENTORY AND PARTS

Manage and track your Inventory and Parts . Receive notifications for change management of inventory resources. Utilize our GPS enabled mobile barcode scanning.

SAFETY AND COMPLIANCE

Manage Safety Incidents, view compliance statistics, employee certs and utilize custom digital safety forms.

RESOURCE DOCUMENTS LIBRARY

Empower your field teams by attaching manuals, photos, videos and documents to your Documents Library.
