WELD SUPPORT SLEEVES

Hunt Pipeline Products manufactures Weld Support Sleeves to assist you with integrity repairs that are near girth weld seams.

With having the clearance within the product this allows the Steel Repair Sleeve to pass over a joint weld.

We manufacture Weld Support Sleeves in sizes ranging from 6.625" ID up to 60" ID, material thickness ranges from .250" up to 3" and lengths up to 60". We also offer fully customized machined versions as well.
