About INPIPE PRODUCTS™

INPIPE PRODUCTS™ has been at the forefront of the pipeline pigging industry for over 40 years, delivering innovative solutions for pipeline maintenance, isolation and testing.

Based in the North East of England, with a service centre in Aberdeen, we serve a broad range of industries, including oil and gas, petrochemical, mining, nuclear, water reuse / desalination and food processing.

Our success is built on a deep commitment

to research and development, with numerous patented technologies that have become industry standards. From our first patented pig signalling in 1986 to our latest advances, **INPIPE PRODUCTS™** has continually pushed the boundaries of pipeline solutions, delivering safety, efficiency, and reliability for clients worldwide.

With a focus on excellence and sustainability, our experienced leadership team drives rapid growth and continuous improvement, ensuring that we meet the evolving needs of our customers while maintaining our reputation for quality and innovation.

Company Profile

Why Us

With over 40 years of industry experience, **INPIPE PRODUCTS™** stands on a solid foundation of extensive skill, knowledge and expertise in the pigging industry.

- **Expert Design and Engineering:** Our extensive engineering experience, combined with integrated manufacturing capabilities, ensures the custom design of full turnkey project solutions tailored to the most demanding client needs.
- **Innovative Solutions:** Our dedicated team of pigging specialists provides clients with cutting-edge solutions tailored to their specific requirements.
- **SMART Pigging Technology:** We utilise advanced smart pigging technology to inspect and maintain pipelines. These innovative pipeline inspection solutions ensure maximum flow assurance and detailed insights for asset integrity.
- **Comprehensive Support:** We offer a flexible support approach that includes design, manufacture, testing, and operation, delivering full turnkey projects based on client requirements.
- **Extensive Hire Fleet:** We boast the largest fleet for isolation, weld testing, and pig tracking, available 24/7. Our Posi-seal technology ensures simple, low-cost, time-saving solutions. **INPIPE HIRE™**, a division of **INPIPE PRODUCTS™**, delivers unmatched pipeline testing and isolation services.
- **Efficient Logistics:** We have developed significant logistics expertise to ensure quick shipping, customs clearance and efficient delivery to client sites worldwide in the shortest possible time.
- **ISO Accreditations:** We operate within the accredited framework for ISO 9001:2015 Quality Management Systems, ISO 45001 Occupational Health and Safety Management Systems, and ISO 14001 Environmental Management Systems.

Our commitment to "Right First Time" has established **INPIPE PRODUCTS™** as the premier supplier of pigging products and services for over 40 years.

iNPIPE PRODUCTS

40
YEARS
1984-2024

Global Leaders in Pipeline Pigging, Maintenance,
Isolation and Testing Solutions

www.inpipeproducts.com

1984

FOUNDED

Established in 1984 by Ken Hemingway, a lifelong pipeline industry expert.

1986

FIRST PATENT

The first patented product, an omni-directional intrusive signaller, remains a global market leader.

2000

DUAL TOOL

Developed for Operators and Contractors to provide a double block and bleed barrier for welding. Can also be used to hydrotest new welds.

2006

FLEXIBLE ISOLATION DUAL TOOL

Moving forward upon client request the flexible Dual Tool was developed to traverse complex pipeline configurations.

2017

CLASS 10K INTRUSIVE PIG SIGNALLER & JACKING DEVICE

Introduced the API 10K signaller design and fully tested jacking device for safe removal under full line pressure.

2017

FIRST OF ITS KIND 90" PIGGING SOLUTION

Designed, manufactured and tested a 90" integrated inlet cleaning system for one of the world's largest seawater pipelines

2014

WET BUCKLE PIG INSERTION TOOL

Developed for an international pipe laying company for a major offshore project.

2013

MBO & RELOCATION

Management buyout by the current team. Relocated to a new 60,000 ft² facility with state-of-the-art features.

2018

HEALTH & SAFETY SILVER RISING TO GOLD AWARD WINNERS

Winners of the RoSPA Occupational Health and Safety Awards from 2018 to 2024, the longest-running industry awards scheme in the UK.

2018

350km 36" & 48" PIGGABLE PLUG

Developed a new piggable/welding pig design using our uniquely patented tyre design, providing proven reliability.

2020

ICE PIGGING

Completed the first ice pigging contract for an onshore condensate pipeline decommissioning project in the UK.

2023

ACOUSTEK™ PIPELINE BLOCKAGE & LEAKAGE DETECTION

Introduced acoustic reflectometry technology to detect full or partial blockages in gas pipelines or valve leakage.

2022

ABERDEEN SERVICE CENTRE Opened a new facility providing engineering support & pigging maintenance services

2021

CRAWLER PIG JETTING SYSTEM

Introduced a non-abrasive, environmentally friendly solution for cleaning pipelines using a self-propelling water jet cleaning pig.

2020

SUPER DUPLEX PIGGING SYSTEM, CAMERA PIG & OFFSHORE RECEIVING SYSTEM

Designed, built and tested systems with ongoing technical support and maintenance.

2024

WATER INDUSTRY AWARDS WINNERS

Ground-breaker Award for our SMART Pigging technology, commissioned in partnership with Above Utilities for a 42" UK aqueduct project. This world-first innovative pipeline cleaning method saves millions of litres of water.

2024

NON-INTRUSIVE PIG SIGNALLER

Introduced Mag-Trax (Magnetic Pig Signaller) and Sonic-Trax (Acoustic Pig Signaller) for pipeline pig/scrapper detection.

2024

PHOENIX SMART PIGGING SOLUTIONS

Debris Mapping Pigs/Tools developed from decades of experience provide a 360° internal assessment of pipelines using state-of-the-art sensor technology.

Company Profile

What we can do

Pigging Products

INPIPE PRODUCTS™ excels in the full design, manufacture and supply of an extensive range of cutting-edge products for pipeline pigging, maintenance, isolation, hydrostatic testing and flow assurance. Our innovative solutions are trusted by industry leaders worldwide to enhance operational efficiency and reliability.

PRODUCT RANGE

PIPELINE PIGS	ISOLATION TOOLS	PIG TRACKING & SIGNALLING	PIG HANDLING & LOADING	PIGGING ANCILLARIES	SMART PIGGING
• Anti-static Pigging • Articulated Pigs • Bi-Directional Pigs • Crawler Pig Jetting System • Cup Pigs and Conical Cup Pigs • Desalination Pigs and Handling Equipment • Dual Diameter Pigs • FLEXICAST™ Pigs • Foam Pigs • Gauging Pigs • Gels and Speciality Pigging Solutions • Hi Friction Pigs or High DP Pigs • Hybrid FLEXICAST™ Foam Disc Pig • Hygienic & Sanitary Pigging Systems • Jetting Pigs • Magnetic Pigs • Pull Through Pigs • Spheres • Studded or Pin-Wheel Pigs	• Abandonmen Plugs/ • Decommissioning Pigs • Dual Tool – Twin Tyred Isolation Plug • High Pressure Test Plugs • Hyperbaric Spheres and Piggable Plugs for Subsea Tie-ins on Pipelines • Internal Weld Testers and Flange Weld Testers • Low and Medium Pressure Plugs • Valve Removal Tools • Welding Pig/ Piggable Plug and Multi Tool Isolation & Weld Testing	• Intrusive Pig Signaller • Non Intrusive Magnetic Pig Signaller • Non Intrusive Acoustic Pig Signaller • Pig Tracking & Location • Electro-Magnetic & Acoustic Transmitters for Pig Location • Stuck Pig Location	• Automatic Pig Launcher • Pig Launchers & Receivers • Pig Handling Equipment (Pigging Poles, Sphere Lifter, Loading Cassettes & Pig Trolleys) • Portable Pig Launcher • Sphere Release Finger • Wet Buckle Pig Insertion Tool	• Pig Diverter • Sphere Flow & Barred Tees	• PHOENIX Debris Mapping Tool • Camera-Integrated Pig • Acoustek™ Pipeline Blockage & Leakage Detection

Solutions

INPIPE PRODUCTS™ Solutions delivers bespoke project management and engineering consultancy services, specialising in pipeline pigging, flow assurance, and isolation. Our expert team collaborates closely with clients to develop innovative, customised solutions that address unique challenges, offering full turnkey projects based on client-specific requirements.

say about us -**
Achilles Performance Feedback

Company Facilities and Capabilities

INPIPE PRODUCTS™ is headquartered in North Yorkshire, England, on a 6-acre (261,360 ft²) site featuring a 60,000 ft² facility equipped with state-of-the-art infrastructure. Our facilities include a CNC machine cell, polyurethane moulding cell, polyurethane foam moulding cell and comprehensive testing facilities, enabling a fully integrated manufacturing process. This setup ensures 100% control over all activities, facilitating seamless and accelerated production.

Our bespoke 6-acre test facility supports full-scale proof of concept and factory acceptance testing. It accommodates third-party inspections and client-witnessed FAT procedures for pigging products and solutions ranging from 6" to 90". We conduct system validation through internationally recognized third-party authorities, providing confidence in the reliability and performance of our solutions.

INPIPE PRODUCTS™ Aberdeen Service Centre delivers engineering support and pigging maintenance services to respond to customer needs in the heart of the UK's oil & gas exploration and production sector, known as the 'energy capital of Europe,' and beyond. The 8,700 sq.ft facility has a fully equipped workshop to cater to clients' pipeline pigging and isolation needs, covering pigging assessment, pig fleet management, pig trials, refurbishments, spares and pig washing.

The facility also features a cutting-edge hydrotesting cell and a comprehensive range of hire tools for pipeline isolation and testing, ensuring the highest standards of pipeline integrity. Additionally, the Aberdeen facility offers 24-hour turnaround hire on a full range of isolation, weld testing equipment, pig tracking, and pig location services to complement the services offered.

Our exceptional design and engineering capabilities are driven by a team of industry experts with deep knowledge and extensive experience. At **INPIPE PRODUCTS™**, we pride ourselves on deploying highly skilled professionals who are dedicated to delivering innovative, efficient and high-quality solutions to our clients around the globe.

Company Profile

Global Reach

INPIPE PRODUCTS™ operates globally with multi-cultural customers and product users. An inherent flexible and responsive approach, together with open communication has led to the development of valued commercial relationships between **INPIPE PRODUCTS™** and Clients around the world.

With a strong partnership of alliances globally, the company is responsive and supportive. The map below is indicative of the areas in which we operate.

Company Profile

ISO 9001 Quality Management System

ISO 45001 Occupational Health and Safety Management System

Certificate of Registration

This is to certify that the Occupational Health & Safety Management System of:

International Pipeline Products Limited
Gatherley Road, Brompton on Swale, North Yorkshire, DL10 7JH, United Kingdom

applicable to:

The design, manufacture, hire, repair and refurbishment services of pipeline pigs, spheres, monitor pig passage indicators, pipe plugs/stoppers, weld testers and customised polyurethane products. The design, supply and repair of pig launching and receiving traps, sphere tees diverters and associated pipeline fittings

has been assessed and registered by NQA against the provisions of:

ISO 45001:2018

This registration is subject to the company maintaining an occupational health & safety management system, to the above standard, which will be monitored by NQA.

Managing Director

Certificate No.	124260
ISO Approval Date:	4 May 2022
Reissued:	17 May 2024
Valid Until:	22 September 2027
EAC Code:	19, 28, 17, 32

Page 1 of 1

The use of the UKAS Accreditation Mark indicates accreditation in respect of those activities covered by the accreditation certificate number 015 held by NQA. NQA is a trading name of NQA Certification Limited, Registration No. 06351758. Registered Office: Warwick House, Houghton Hall Park, Houghton Regis, Dunstable Bedfordshire LU5 5ZX, United Kingdom. This certificate is the property of NQA and must be returned on request.

Health & Safety Awards

INPIPE PRODUCTS™ has been awarded the RoSPA Health and Safety Award in recognition of its practices and achievements in helping its staff, customers and contractors get home safely at the end of the working day.

Company Profile

Our Policies

At **INPIPE PRODUCTS™**, our policies embody our unwavering commitment to responsible and ethical business practices. We strive to maintain the highest standards across all aspects of our operations, ensuring that our actions align with our core values and industry regulations.

Key Policies Include:

Corporate Social Responsibility: Our CSR initiatives are designed to positively impact the communities we serve, emphasising sustainability, ethical practices, and contributions to social well-being.

Business Privacy Policy: we are committed to protecting the privacy and security of our clients, partners and employees. Our Business Privacy Policy outlines how we collect, use, store and protect personal and business information.

Anti-Bribery Policy: We enforce strict measures to prevent and combat bribery and corruption, ensuring transparency and integrity in all our business dealings.

Anti-Slavery Policy: Our commitment to eradicating modern slavery is reflected in our rigorous protocols that ensure fair labor practices and the protection of human rights within our supply chain.

Equality, Diversity & Inclusion: We are dedicated to fostering a diverse and inclusive work environment where every employee is valued and given equal opportunities, promoting a culture of respect and fairness.

Ethical Procurement: Our procurement processes are guided by ethical principles, ensuring that all our suppliers and partners adhere to high standards of conduct and sustainability.

Contractors Policy: We maintain clear guidelines for managing contractors, ensuring that they meet our standards for safety, quality, and compliance while delivering exceptional service.

Quality Policy: Our quality management system is focused on delivering products and services that consistently meet or exceed customer expectations, ensuring continuous improvement and excellence.

Health & Safety Policy: We prioritise the health and safety of our employees, contractors, and visitors by adhering to stringent safety protocols and fostering a safe working environment.

Environmental Policy: Our environmental practices aim to minimise our ecological footprint through sustainable operations, resource efficiency, and proactive measures to protect the environment.

PIGGING PRODUCTS

Alongside our extensive product range, **INPIPE PRODUCTS™** also has the capacity to offer custom engineering solutions.

SOLUTIONS DRIVEN

At **INPIPE PRODUCTS™**, we specialise in pipeline pigging, flow assurance, isolation, inspection and asset integrity.

Our comprehensive suite of products and services includes engineering consultancy and project management, supported by on-site support services.

Our extensive engineering experience and integrated manufacturing capabilities enable us to deliver custom designed turnkey solutions, meeting the most demanding client requirements.

This precision and reliability have earned us a significant reputation among major operators and contractors worldwide

ADVANCED FACILITIES & TRAINING

INPIPE PRODUCTS™ features state-of-the-art design, manufacturing and testing facilities to guarantee the highest quality standards.

We offer comprehensive proof of concept and factory acceptance testing (FAT), with third-party inspections and client-witnessed FAT procedures for pigging products and solutions. Our systems, ranging from 1/2" to 90", are validated through internationally recognised third-party authorities.

Training tutorials on pipeline pigging, isolation, testing and its applications can be conducted at our HQ and Aberdeen Service Centre or at client's sites if required. Project/product specific certificates are issued upon successful completion of the course.

DELIVERY

Our HQ and Aberdeen Service Centre ensure precise project control and timely delivery worldwide.

With significant logistics expertise, we ensure that goods are shipped quickly, cleared through customs efficiently, and delivered to client sites globally in the shortest possible time.

Our "right first time" approach has established **INPIPE PRODUCTS™** as the premier supplier of pigging products and services for over 40 years.

For further details, please contact **INPIPE PRODUCTS™**

INPIPE PRODUCTS™ offers the latest in cutting-edge technology, with in-house design, manufacturing and testing capabilities for both standard and bespoke products.

We provide an unrivalled product range, including Foam & Metal Bodied Pigs/Scrapers, Spheres, Pig Handling Equipment, Isolation Tools, Pig Signallers, Pig Diverters and Launching and Receiving Systems.

Our Aberdeen Service Centre provides engineering support and pigging maintenance services, including pig refurbishment, pigging assessment and pigging tool management.

Our **SMART Pigging** delivers innovative pipeline inspection solutions, ensuring maximum flow assurance and detailed insights into asset integrity. This includes debris mapping tools, pipeline visual inspection and pipeline blockage and leakage detection.
