

#1 in Mobile Degassing, Vapor Control and Water Treatment Since 1992

ALWAYS ENGINEERING. ALWAYS INNOVATING.

Since 1992, Envent has been the #1 provider of degassing services, vapor scrubbers and mobile wastewater treatment in North America. We've been the go-to company for the largest refineries and petrochemical plants in North America.

WHY CHOOSE ENVENT?

SAFETY

Safety Saves You Money. Our industry-best TRIR score protects your assets, personnel and brand — reducing your cost of doing business.

ASSURANCE

100% Compliance on Every Project. We eliminate negative publicity & mitigate risk so you can focus on your business.

FOCUS

Specialists in Environmental Services. Why risk your business on industrial generalists who will end up costing you more in the end?

ENVENTION

Engineering + Invention = Envention.

Our “enventive” technologies and systems are specifically designed to save you time, money and stress.

TENURE

We've Seen It All Before. With the industry's longest tenure & Envent University training, our team has the knowledge & experience you demand.

YOU

Well Done is Better Than Well Said.

Contact us to find out how Envent can engineer complete safety, satisfaction and success for your operation today.

REFINERY TURNAROUND SERVICES

Envent knows that coordinating the most safe, efficient and compliant plant turnaround is the key to success... saving valuable time and money. Let us manage your vapor and wastewater during your next turnaround.

Envent engineers work directly with your environmental department and turnaround planning team to provide turnkey degassing, vapor control, and wastewater treatment services. Our sophisticated compliance monitoring and reporting, using ENFORCE and done by expert operators and engineers, ensures 100% compliance.

ENVENT TURNAROUND SUPPORT SERVICES

- ENGINEERS PERMIT, SCOPE AND SUPERVISE JOBS
- COMBUSTION UNITS AND THERMAL OXIDIZERS
- SAFETY MANAGEMENT, MOC & HAZOP
- VAPOR SCRUBBERS
- ASME CIRCULATING SCRUBBERS
- FLARE-LESS DEGASSING PROGRAM
- MSS/RSR COMPLIANCE SPECIALIST
- H₂S, NH₃, VOCs, BENZENE, C₃ & C₄
- FUEL GAS RECOVERY SYSTEMS
- HEAT EXCHANGERS, TANKS, KO POTS
- WASTEWATER TREATMENT
- VOC AND BENZENE STRIPPERS
- BEST SAFETY RECORD IN INDUSTRY

VAPOR SCRUBBERS & ODOR CONTROL

As North America's leader in vapor scrubbing solutions, our team ensures that petroleum vapors and emissions are handled safely and in full compliance with all local, state and federal regulations.

ASME CODE SCRUBBERS

Envent custom designs, builds and deploys ASME Code recirculating scrubbers anywhere in North America. Flareless de-gassing controls H₂S, SO_x and VOCs.

VAPOR SCRUBBERS

Envent provides scrubber systems to accommodate refinery turnarounds, refinery daily maintenance, chemical plants, pipelines and bulk storage terminals. Our state-of-the-art scrubbers control H₂S, Mercaptans, VOCs, and noxious odors.

VACUUM TRUCK SCRUBBERS

Our fleet includes the most cost-effective and advanced Vacuum Truck Scrubbers in the industry. New regulations make high-efficiency mobile scrubbing an absolute necessity. Controls H₂S, SO_x and VOCs.

PASSIVE SCRUBBER SYSTEMS

Equipped with carbon or our proprietary chemicals, Envent will engineer a low-cost, simple solution tailored to meet your vapor control needs.

HIGH FLOW CARBON AND LIQUID SCRUBBER SYSTEMS

Envent designs and operates carbon media and liquid media systems for industrial facilities, refineries and petrochemical plants. Our systems are HAZOP and MOC certified, and offer capacities that range from 200 lbs. to 20,000 lbs.

DEGASSING & VAPOR CONTROL

Project Managers consider five things when choosing a degassing and vapor control company: Experience, Safety, Compliance, Service and Cost.

ENVENT DELIVERS ON ALL COUNTS.

TANK & VESSEL DEGASSING

Envent is a degassing specialist with the largest and newest fleet of equipment in North America. Our team can evaluate projects quickly to ensure that we provide the right amount of equipment and personnel to handle your assignment safely.

THERMAL OXIDIZERS

We designed our EMTOS and EMECS systems to be the safest, fastest and most effective means of degassing storage tanks. Using the Environmental Protection Agency's 1,400 °F threshold, efficiency for complete vapor destruction is 99+%.

PIPELINE DEGASSING

Having safely degassed more pipelines than any other company in the world – we continue to build on our record. Whether you want a pipeline flared or degassed using an oxidizer or scrubber, we have the solution.

MOBILE WATER TREATMENT SERVICES

Envent is North America's leader in onsite mobile wastewater treatment, including tank, vessel & pipeline hydrostatic test water, refinery turnaround wastewater and contaminated groundwater. Short and long term solutions. We respond 24/7/365 to emergencies and planned projects.

MOBILE WASTEWATER TREATMENT

Envent's expertise with Transportable Treatment Units (TTUs) extends beyond industrial facilities to include wastewater generated by refinery turnarounds, sour water, stormwater, groundwater, chemical contamination and landfill leachate.

- MOBILE DISSOLVED AIR FLOTATION UNITS
- CHEMICAL TREATMENT SYSTEMS
- CARBON FILTRATION UNITS
- AIR STRIPPERS
- OIL/WATER SEPARATORS
- ION EXCHANGE
- PARTICULATE FILTRATION
- REFINERY & PLANT TURNAROUNDS

GROUNDWATER REMEDIATION & TREATMENT

Turnkey solutions for soil and groundwater remediation and treatment.

PIPELINE & TANK HYDROTEST WATER TREATMENT

Hydrotest water treatment from 500 gallons to 5 million barrels.

MARINE & TRUCK LOADING VAPOR CONTROL

As the leader in mobile U.S.C.G. certified Marine Vapor Control Systems, Envent stands ready to deploy our fleet of marine, truck and railcar loading systems to ports nationwide. We'll design, engineer, permit, set up and operate your short term or long term vapor control project.

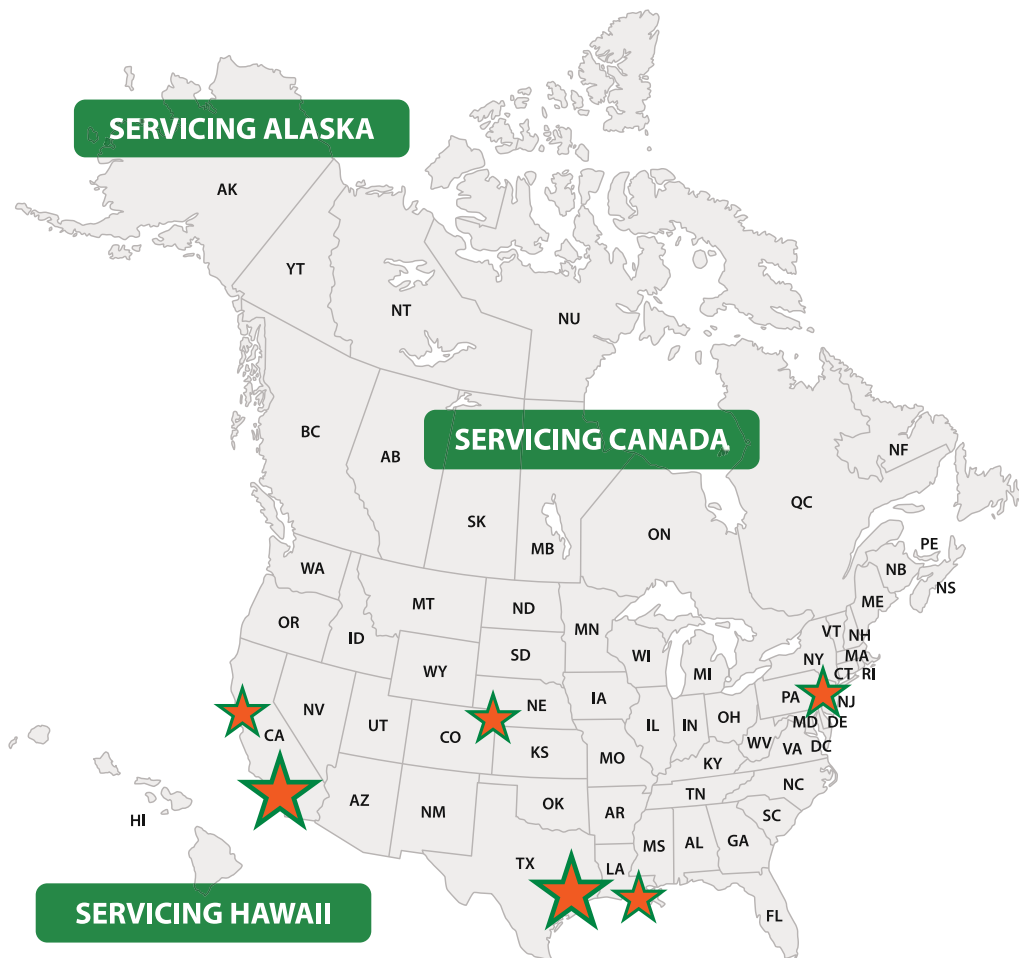

THE ENVENT MOBILE EMISSION CONTROL SYSTEM (EMECs) AND ENVENT DOCK SAFETY UNIT (EDSU) removes the need for you to invest in the design, engineering and even some permitting for a permanent system. With portable dock safety skids and large vapor combustion units capable of fast deployment, our vapor combustors are source-tested to meet the U.S. EPA's Best Available Control Technology (BACT).

BENEFITS OF THE EMECS / EDSU INCLUDE:

- ELIMINATE CAPITAL EXPENDITURE AND ENGINEERING COSTS
- USCG COMPLIANCE WITH 33CFR154 – NO “GAP ANALYSIS” REQUIRED
- FULL DOCK SAFETY UNIT – SKID MOUNTED
- PRE-APPROVED HAZOP SYSTEM
- AVOID BUILDING, AIR & USCG PERMITS – ENVENT WILL ACQUIRE

THE ENVENT PROCESS

Here's what happens after you contact us:

ESTABLISH We establish your job specifics.

NOTATE We notate all aspects of your job on a detailed site walk.

VET We vet your project thoroughly with our engineering team.

EXCEL We excel in our field of work.

NONSTOP We deliver nonstop monitoring and communication.

TIMELY We strictly adhere to timely completion.

ENFORCE 2.0

Envent puts your projects on full display with **ENFORCE 2.0**, our digital job tracking system that keeps all our teams synced on your project's status.

Get checklists, logs, and reports available for e-signature, all submitted instantly as your job is in progress. And your compliance and ticketing data gets backed up immediately to our secure, encrypted cloud.

- Class 1 Div 2 Intrinsically Safe Devices
- New Software ensures 100% compliant and accurate data
- Automated Text Alerts keep our entire team updated on your job's status
- Improved Offline Capabilities allow data reporting from the most remote job sites
- Device Restrictions limit access to only the ENFORCE App
- Improved Data Processing for faster compliance reporting
