(877) 534-4379 info@ox-onsite.com

INDUSTRIES WE SERVE:

- Pipeline
- Electrical distribution
- Utility distribution
- Substations
- Roadworks
- Environmental
- Compressor stations
- Industrial Plants
- Solar Farms
- And many more

OUR TEAM

Our operators are focused on delivering the very best dry vacuum excavation performance on your site. That means uncompromising safety and unparalleled productivity, while reducing our environmental impact and protecting our valuable shared resources.

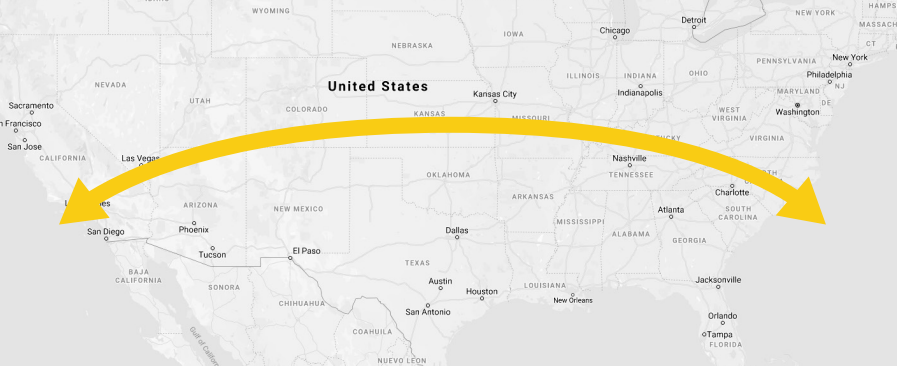

OUR TECH

Exclusive use of the innovative MTS Dino Series Suction Excavator (from Ox Equipment) allows us to be better than traditional "old" hydrovac technology. With America's #1 dry vac there's no need for water, no production or disposal of wet slurry, no downtime for haulage during large excavations, we stay on site until the job is done.

MTS **DINO**SERIES

AMERICA'S #1 DRY VAC EXCAVATION SERVICE

We deliver industry leading service across the USA - if you need dry, get it OnSite!
