PIPESAK.COM

WE PROTECT WHAT YOU BUILD™

PipeSak® has been an innovator and industry leader for more than 25 years. As a pipeline protection pioneer, our vision is simple: every product that touches a pipeline should be engineered to ensure long-term integrity.

Used separately or as a complete protection system, our engineered products for buoyancy control, pipeline support, and impact protection meet rugged construction standards and stay within budget.

Contact PipeSak® to build a safer pipeline: 1-866-747-3725.

PipeSak®

LOW PROFILE PIPELINE WEIGHTS

PipeSak® geotextile pipeline weights continue to set the standard in buoyancy control. Reduce trench depth, evenly distribute weight, and speed up installation with our latest Extreme Low Profile (ELP) design.

PipeSak®

WE FILL PIPESAKS

Get over 25 years of filling experience by OSHA certified crews. Whether you need 100 weights or 10,000, choose PipeSak filling services for guaranteed quality and on-time delivery, every time.

PipeSak®

CUSTOM DESIGN & ENGINEERING

If your project has specialized buoyancy, support or protection needs, work with our engineers to develop a unique solution for even the most challenging protection requirements.

BUILD A SAFER PIPELINE

STRONG

ECO-FRIENDLY

SMART CHOICE

SAFE & DURABLE

EASY INSTALL

EFFICIENT

STRUCTURED PIPELINE SUPPORT

Replace foam, sandbags, and pad dirt with permanent Structured Pipeline Pillows (SPP) that prevent ovality of fully loaded pipelines, both in and out of the trench. PipePillo® supports are fast and easy to install, won't float, and support cathodic protection systems.

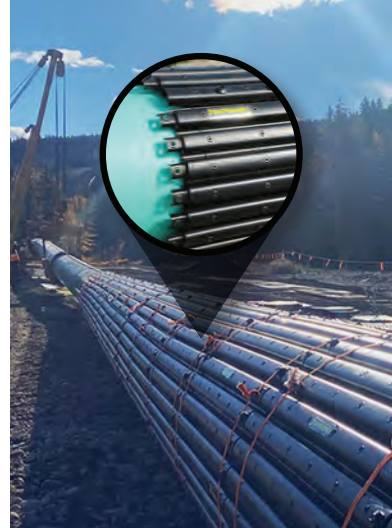

HIGH-IMPACT & LIGHTWEIGHT ROCKSHIELD

This economical, no-compromise rockshield is quick and easy to install with no workers ditch-side, remains flexible in all weather, and works with rolling cradles and cathodic protection systems. Keep your project moving with RockStop®.

ENGINEERED PIPELINE LAGGING

Replace wood lagging, thin concrete coating, and sand padding with award-winning technology. PipeDefender® provides extreme protection while being lightweight and easy to install with no equipment required. Ask us about PipeDefender®.

INDUSTRY LEADERSHIP AND SUPERIOR CUSTOMER SERVICE

As founder, CEO and industry recognized expert in pipeline integrity, I've navigated pipeline projects for over 40 years. Our team will support you in building a pipeline engineered to last - from ground level engineering to post-project support. You have my word.

Geoff W. Connors
CEO P. Eng.
