

Streamline your engineering, fabrication and construction timeline with sound project management solutions.

Whether your project is an offshore oil & gas development, mid-continent processing or storage facility, transportation system, or Gulf Coast plant or refinery, RCI can assist your team. Our suite of services cover project management, inspection, quality assurance & quality control, and health, safety, and environmental. Our highly specialized and experienced employees service clients in the onshore and offshore segments of the oil & gas and petrochemical industry focusing on managing projects with an emphasis on constructability and operability. RCI can manage the project from the earliest stages of scoping and costing, into and throughout the conceptual and design engineering, to fabrication and on-site construction and commissioning. We are also very active in conducting facility maintenance operations, facility expansions, as well as decommissioning and salvage operations both onshore and offshore.

Project & Construction Management

Office or Field Based

- Turn-key Project Management
- On-site Project Managers / Field Engineers
- Assist Client Project and / or Engineering Teams (Including On-site / In-house)
- Bid Package Preparation
- Bid Evaluation & Contract Negotiations
- Planning, Scheduling, Logistics, & Expediting
- Cost Estimates, Procurement & Cost Tracking
- Project Support – Document & Materials Control, Scheduling, & Administrative
- Code & Regulatory Compliance
- Litigation / Arbitration Support
- HSE Corrective Action Plans & Accident Investigations
- Development & Implementation of Project HSE Plans
- Feasibility Studies
- Engineering Research & Studies
- Field Development Studies
- Design Basis Development & Documentation
- Specification Review / Development
- Project Job Books & Documentation
- DOT Data Books
- Client Database Development
- Asset Valuation & Risk Assessment
- FASB 143 Abandonment Cost Assessments

Site Inspection, QA/QC, HSE

Our QA/QC inspectors are of the highest caliber experienced in and holding certifications & such as Mechanical, Piping, Structural, NACE, CWI, API, ASNT, ASME, OSHA, HSE, and others.

- Facility Inspections
- Construction Verification
- Detailed Document Inspection & Review
- On-site Construction Supervisors
- On-site Construction Coordination
- Vendor Surveillance
- Lead Inspection Staff
- Crafts & Trades Inspection
- Shop/Fabrication Inspection
- Material Selection & Evaluation
- Certified Welding Inspection
- Operator Qualified Inspection
- Instrumentation and Electrical Inspection
- NACE Coating Inspection
- Structural Fabrication Inspection
- ASME Vessel Inspection
- API Tank Inspection
- Mill Surveillance
- Jobsite HSE Oversight
- HSE Field Assessments
- Site Walkdowns, P&ID Development

RCI is focused on controlling vendor cost and reducing time to project completion.
