 - November 19 – final paper, see item 1

1. Prepare and send the final paper

See the upload link above. Your paper will be edited for style, published as an encrypted PDF document and distributed electronically to the delegates. The abstract and authors' biographical notes will be published in the printed Conference Handbook. In order to meet our production deadline, a file in Word (*formatted using our Word template*) including all illustrations and tables is required by **November 19, 2026**. Consult our [Sample Paper](#) for guidance on style and specs.

Photographs, illustrations, and tables are welcome: they should be added to the paper and labeled with the same figure/table numbers as in the text. They can be optionally placed together at the end of the text pages or inserted where they are referenced in the text.

There is no prescribed length for the paper: a typical guideline value might be 10-20 pages, plus illustrations.

Copyright. For the purposes of the conference, we require a joint copyright to the paper as submitted. Papers may be published after the event in publications produced by Clarion or its licensees. We will provide a notice of copyright in the names of the author(s) and Clarion.

2. PowerPoint presentation

See the upload link above. Please prepare your slides using the PPIM **PowerPoint template** and get these to us by **December 16**. Handouts will be printed at two per page.

3. Biographical note

See the upload link above. For the information of the participants and the chairman's introduction, please provide a brief biography of all authors of your paper which includes present positions, work experience, contributions of interest, publications, professional memberships, academic degrees, etc. Kindly limit this to 50 words for each author. **This is required by December 16.**
