PPIM 2025
PIPELINE PIGGING & INTEGRITY MANAGEMENT

The industry's forum devoted exclusively to pigging for maintenance and inspection, as well as pipeline repair, this event will draw engineering management and field operating personnel from both transmission and distribution companies concerned with improved operations and integrity management.

We encourage you to submit your abstract early, as our program may be almost full by the final deadline.

CALL FOR PAPERS

PPIM is an international forum focused on engineering and technology for pipeline inspection, assessment and repair, as well as regulatory compliance and Integrity Management Programs.

Broadly, our primary criteria for selection of papers to be presented at PPIM are:
- Operator involvement and/or real-world experience;
- Technical not commercial (and technically sound);
- Respected author/institutions;
- Broad appeal and/or novel/new technologies.

Papers will be published and distributed to the conference delegates in encrypted PDF format. In addition, PPIM conference papers will be incorporated in the SCOPUS® abstract & citation database which is used by leading academic, business, and government institutions. Individual papers will also be freely available to these institutions in order to promote citation and reference.

Proposals should be sent to the PPIM submissions editor here:

SUBMIT PROPOSAL

Final abstracts deadline: September 5, 2024
Final paper deadline: December 12, 2024
Final presentation deadline: January 6, 2025
